

EU-Africa flagship projects for 2023

Partnerships on Digital, Climate and Energy, Transport, Health, Education and Research

March 2023

Regional - Central and Regional - Southern Neighbourhood - Medusa cable Construction of a **Eastern Africa - Renewables** Medusa submarine optical fibre cable in the Mediterranean will high-voltage undersea Construction of Ruzizi III hydropower connect Northern African countries with European countries to electrical interconnection increase the speed of internet in Northern Africa universities. plant for DRC, Rwanda and Burundi. between Egypt and Greece Modernisation of the Alexandria Area Control Centre Tunisia Production of Methanol for Morocco ····· Niger green shipping • Extension of 37 km of the Construction of a first Construction of hybrid and tramway network in the Rabatundersea high-voltage solar power plants and Salé-Témara agglomeration electricity cable extension of the energy interconnection (ELMED) network: Construction of hydrogen between Italy and Tunisia Construction of Bus Rapid power plant photovoltaic power plant Transit system in Nairobi Gorou Banda (30 MW) Production of methanol for Construction of optic fibre green shipping • hybrid photovoltaic plant in infrastructure and last mile Agadez (19 MW) **Democratic Republic** connections of Congo North backbone of the Mauritania ····· Nigeria - Niger - Benin - Strategic partnership • Construction of data centre in **Burkina Faso Interconnection** on critical raw materials Djibouti Nouakchott and submarine (330 kV) being explored cable Doubling the capacity of the desalination plant, construction of a solar energy plant Senegal ····· Djibouti airport development Construction of Bus Rapid project Transit system in Dakar Development of Dakar Bus **Public Transport Network** Regional - Sub-Saharan Africa - Health Gambia Manufacturing and access to Expansion & rehabilitation of vaccines, medicines and health Port of Banjul technology products in Senegal, Rwanda, Ghana and South Africa. Cape Verde Construction of Pump and Storage Facility in Santiago Namibia island Construction of 85 MW solar PV plant combined with Guinea Bissau electrolysers Rehabilitation of the road Bissau • Implementation of partnership / Safim - Sao Domingos - Mpack on raw materials value chains - Senegal border - 115 km and renewable hydrogen Côte d'Ivoire **Burundi** Development of solar power Improving access to electricity plant in Boundiali, Serebou and in Bujumbura Extension, reinforcement and Madagascar upgrading of networks 320 MW increase of renewable energy production with various subprojects Benin ... Rehabilitation **Tanzania** Allada-Dassa road Construction of Kakono Upgrade of large-scale solar **Hydropower Plant** power plant and photovoltaic minigrids by the West African Mozambique Power Pool (WAPP) Construction of National ···· Zambia **Control Centre for Energy** Cameroon Rehabilitation of the Infrastructure, improvement Development of generation Construction of Yaounde Kariba Dam to minimise of the reliability and the risk of failure and evacuation infrastructure sustainability of the power bypass for on-grid renewable energy supply projects Republic of Congo ····· Angola **South Africa** Invest on digital literacy and skills for youth to foster Construction of six small • Establishment of a green and Extension and upgrading of Expansion of a biogas plant digital transformation hydropower plants of a total of digital corridor between the the infrastructures of the (Bio2Watt project) producing (VaMoz Digital) approximately 2MW Portuguese Port of Sines and biogas from animal waste and autonomous Port of Creation of employment Pointe-Noire the Angolan Port of Barra Do Construction of about 150 small other waste sources opportunities in the energy Dande photovoltaic-hybrid mini-grids Construction of the new industry for youth in Cabo Provision of combi-tracks solar industrial and artisanal fishing Delgado (pilot vocational energy and horticulture training initiative + EMPREGO) Regional - Sub-Saharan Africa -Regional -Regional - Sub-Saharan Africa - NaturAfrica Digital Transport Health **Sub-Saharan Data Governance** Development of Congo Basin forest ecosystems,

Transhumance landscapes in Central Africa, West

Africa, Eastern Rift savannahs and watersheds,

Africa Forests, Sudano-sahelian savannahs of West

Transfrontier conservation areas of Southern Africa.

Development of data policy frameworks

identification of investments in green

and data use cases, as well as

and secure data infrastructure.

Africa - Education

Regional Teacher

Programme.

Climate and Energy

Education and Research
